

Do you want to find out about some sustainable alternatives to plastic wrap / clingfilm?

Our fab Waste Reduction Volunteer Daniela has you covered!

Did you know? Plastic wrap is made from crude oil. Source: friendsoftheearth.uk

Did you know? We throw away around 290,000 tonnes of plastic bags and wrapping every year in the UK. This material makes up nearly a quarter of consumer packaging. Source: wrap.org.uk

Plastic Wrap – we all love it. Cheap, versatile, practical. We think we can't live without it BUT it's made of plastic, it's a single use product and it's not recyclable.

Have we got any better options?

Beeswax wraps

Volunteer can be seen wrapping food in a beeswax wrap.

Silicone lids

Volunteer can be seen demonstrating the use of a silicone lid by placing it on a bowl and a cup.

Fabric wrap

Volunteer can be seen wrapping a sandwich in fabric wrap.

Why not try some ethical alternatives to plastic wrap today! Thanks for watching.
